Deviation Numbers 2020 Vs 2019

Session	2019	2020	Deviation
7	275	339	+64
8	245	334	+89
9	262	334	+72
10	252	306	+54

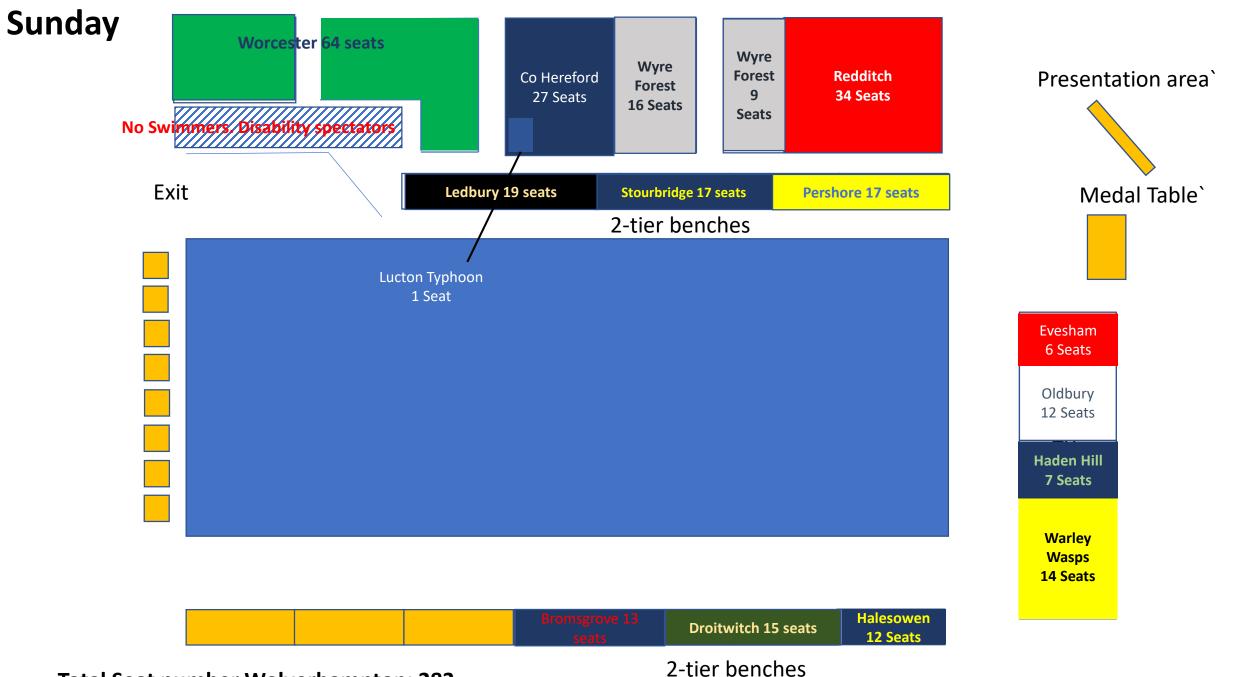

- If we can cope with session 7 then the situation does not get any worse throughout the 2 days
- +64 Vs busiest session in 2019 not for the faint-hearted
- Believe it is not possible to share this with WV Active in case they provide a maximum number
- Warm up is workable with 4 x 15 minutes sessions as agreed at Swim Committee
- The committee felt that whilst we have the right to remove swimmers it is undesirable
- Ultimately we will need to 'manage' and review which events have generated the extra numbers in prep for 2021
- Worst case scenario parents will need to removed and refunded if WV Active say we are overcapacity
